Attachments: OH SO2 TSD 6-12.docx; pekin SO2 Comment-Response.docx

Hi Rhonda,

First, for the Part 81 Table, the only issue we noticed was in West Virginia, the Marshall Area (previously Wheeling) should actually be the Marshall County, WV Area. There is not a Marshall, WV, and using County in the area name is more consistent with other areas. Second, the Ohio TSD has been updated to include the final decision on the Marshall County, WV area and is attached.

Ex. 5 - Deliberative Process Privilege

This is also attached. Let me

know if you need anything else or have any questions.

Thanks,
Sarah

Hi all, please confirm whether or not your nonattainment areas are correct in the Part 81 tables attached.

R4 and R7, we may need to discuss separately on how to write your descriptions. To be consistent with the other areas, we want to refrain from inserting tables by writing your description in paragraph form. If you have suggestions, please share.

Greetings all,

Please review the attached draft Part 81 tables. Please make sure that all information for your area is accurate. If you do not have any edits/corrections, please let me know that as well.

Also, if you have not yet confirmed the accuracy of the maps and/or the contact information, please do so as soon as you can.

Thank you,

Rhonda

Subject: Final SO2 Designations Area Maps

Importance: High

Hi all,

Please review the final SO2D Maps. All these maps reflect the latest boundary you provided and legend changes. These maps are also using the new SO2 emissions (08 NEI v3) that I previously mentioned is the updated version we will be using for final designations. There are a couple of things to make note of:

1.)

[REDACTED]

[REDACTED]

[REDACTED]

Non-Responsive

Please review the maps and let me know if there are any corrections that need to be made.

Thank you,

Rhonda
